DETAILED ACTION

Double Patenting

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 7-11 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1, 7 and 13 of copending Application No. 10/787,668. Although the conflicting claims are not identical, they are not patentably distinct from each other because claim 7 in the instant application is drawn to the apparatus corresponding to the method of using same as claimed in the conflicting application claims 1, 7 and 13.

This is a provisional obviousness-type double patenting rejection.

Response to Arguments

3. Applicant's arguments filed June 26, 2005 have been fully considered but they are not persuasive. With respect to the request to amend the specification made in the previous Office action mailed June 22, 2005, said request is vacated. With respect to the argument that the terminal disclaimer is unnecessary because the instant

Art Unit: 2651

application is the later-filed application, this argument is not persuasive because (1) there is no guarantee that the prior-filed application will issue before the present application, due to unforeseen processing delays within the Office or prosecution delays by the applicant, (2) the purpose of a terminal disclaimer is two-fold; not only to prevent undue timewise extension of the right to exclude, but also to prevent possible harassment by multiple assignees.

With respect to applicant's argument concerning duty of disclosure pursuant to 37 CFR 1.56, it should be noted that the purpose of said rule is to disclose all information known to be material to patentability and is deemed to be satisfied if all information known to be material to patentability of any claim issued in a patent was cited by the Office or submitted to the Office in the manner prescribed by §§ 1.97(b)-(d) and 1.98; i.e., within any one of the following time periods:

- (1) Within three months of the filing date of a national application other than a continued prosecution application under § 1.53(d);
- (2) Within three months of the date of entry of the national stage as set forth in § 1.491 in an international application;
- (3) Before the mailing of a first Office action on the merits; or
- (4) Before the mailing of a first Office action after the filing of a request for continued examination under § 1.114.

There is no guarantee that potentially conflicting applications will be examined by the same examiner or even within the same art unit.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
